Independent Auditor's Report

Honorable Mayor and the Board of Trustees
Town of Limon, Colorado

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Limon, Colorado, as of and for the year ended December 31, 2010, which collectively comprise the Town of Limon, Colorado's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Limon, Colorado's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above, present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Limon, Colorado, as of December 31, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we also have issued a report dated July 25, 2011, on our consideration of the Town of Limon, Colorado's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis and Budgetary Comparison Information as listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Limon, Colorado's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; the combining and individual nonmajor fund financial statements; budget-to-actual schedules; debt service requirements and the Local Highway Finance Report are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Town of Limon, Colorado. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Town of Limon, Colorado
Management's Discussion and Analysis
December 31, 2010

In compliance with this reporting requirement, we present this report titled Management's Discussion and Analysis, or MD&A. Please read the MD&A in conjunction with the financial statements and notes to the financial statements, which begin on page 14. The GASB34 statements are listed and described below with additional information in the accompanying text:

- Statements of Net Assets, the balance sheet that combines all funds on a Town-wide basis.
- Statement of Activities, the income statement that combines all funds on a Town-wide basis.
- Statements for Governmental funds, which combines Governmental funds such as the General, Conservation Trust, Cemetery Perpetual Care, Head Start and other funds.
- Statements for Business-type funds, the label for the Town's Proprietary funds such as Utility, Recreation Area, Ambulance and Airport Fuel.

As stated above, the purpose of the MD&A is to provide an explanation of the effect on the Town's financial position of factors such as local economic and business factors, and to explain the reasons for changes in the financial position of the Town. It will closely resemble the MD&A produced for decades by private industry and publicly traded companies. This discussion starts with a summary of the economic factors affecting the Town during this past year, and then moves on to a more detailed discussion of fund statements and funds.

FINANCIAL HIGHLIGHTS

- The Town's total net assets increased by \$627,886 or 4.0% during the year. The governmental net assets increased by \$507,963 or 6.5%, and the business-type net assets increased by \$119,923, or 1.6%.
- The governmental activities revenue changed from \$2,848,209 in 2009 to \$3,784,423 in 2010 for an increase of \$948,523 or 33.3%. This increase is due primarily to large increases in insurance proceeds, federal grants and gravel sales.
- The governmental activities expenditures changed from \$2,777,195 in 2009 to \$3,276,460 in 2010, an increase of \$499,265 or 18.0%. The increase is due primarily to an increase in administrative and Head Start program expenditures in 2010.
- The business-type activities revenue changed from \$1,296,752 in 2009 to \$1,649,302 in 2010, an increase of \$352,550 or 27.2%. This increase is due primarily to a large increase in water sales in 2010.
- The business-type activities expenditures changed from \$1,512,938 in 2009 to \$1,529,379 in 2010, an increase of \$16,441 or 1.1%
- The General Fund (the primary operating fund) reflected on a current financial resource basis, reports an increase of \$313,135 or 48.1% in fund balance. This increase is due primarily to a large increases in insurance proceeds, federal grants and gravel sales.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – management’s discussion and analysis, the basic financial statements, required supplementary information, and a section that presents combining statements for nonmajor governmental funds.

Basic financial statements - include two kinds of statements that present different views of the Town.

- **Government-wide financial statements** provide both long-term and short-term information about the Town’s overall financial status. The required financial statements include statement of net assets, and statement of activities. The measurement focus is on economic resources and accrual accounting is used. Assets and liabilities include both financial and capital and are reported as short and long term. Revenues and expenses are included regardless of when cash is received or paid.
- **Fund Financial Statements** focus on the individual parts of the Town reporting in more detail the Town’s operations.
 1. **Governmental Funds** show how general government services like public safety, public works, recreation, and general government administration were financed in the short term and what remains for future spending. The required financial statements are a balance sheet and statement of revenues, expenditures and changes in fund balance. Only assets expected to be used and liabilities that come due during the year or soon thereafter are included. Capital assets are not included as assets. The measurement focus is on current financial resources and modified accrual accounting is used to report revenues and expenses that are received during the year or soon thereafter.
 2. **Proprietary Funds** include activities, such as the water, water treatment and sewer systems, the Municipal Recreation, Airport Fuel, and Ambulance Service, are operated similar to private business with an economic resource focus and accrual accounting. The required financial statements include Statement of Net Assets, Statement of Revenues, expenses, and changes in Net Assets, and Statement of cash flows. All assets and liabilities, both financial and capital, long and short-term are provided and all revenues and expenses are included regardless of when cash is received or paid.
 3. **Fiduciary Funds** include the Employee’s Pension Fund. The Town is responsible for the assets in this fund and for reporting. The above fund is reported in separate statements of Fiduciary Net Assets and Change in Fiduciary Net Assets. It has been excluded from the Town’s government-wide financial statements because the Town cannot use this fund to service its operations.

Notes to the basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information includes budgetary comparison schedules for the General Fund and major special revenue funds.

Other Supplementary Information includes combining statements for nonmajor governmental funds and budget comparison schedules for all nonmajor special revenue funds, capital project funds, and proprietary funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The government-wide statements report information about the Town as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Town's net assets and how they have changed. Net assets-the difference between the Town's assets and liabilities- is one way to measure the Town's financial health, or position.

- Over time, increases or decreases in the Town's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the Town, additional non-financial factors need to be considered, such as changes in the Town's property tax base and the condition of the Town's roads.

The government-wide financial statements of the Town are divided into two categories:

Governmental Activities – Most of the Town's basic services are included here, such as police, streets, parks and recreation departments, and general administration. Sales taxes, property taxes, franchise taxes, and charges for services finance most of these activities.

Business-type Activities – The Town charges fees to customers to recover most of the costs of certain activities. The Town's water system is included here.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the Town's most significant funds – not the Town as a whole. Funds are accounting devices that a Town uses to account for specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants, such as the Conservation Trust Fund.

The Town has two kinds of funds:

- **Governmental Funds** – Most of the Town's basic services are included in the governmental funds, which focus on the flow of cash in and out and how balances remaining at the end of the year are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine the change in financial resources that can be spent in the near future to finance the Town's programs. Because this information does not

encompass the additional long-term focus of the government-wide statements, additional information is provided on the subsequent page that explains the differences between them.

- Proprietary Funds – Services for which the Town charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long and short-term financial information. The Town’s Utility, Recreation Area, Airport Fuel, and Ambulance Service Funds are proprietary funds, accounting for its water distribution and sewage collection, golfing, airplane fuel sales, and ambulance service activities, respectively.

FINANCIAL ANALYSIS OF THE TOWN’S FUNDS

The Town uses fund accounting to comply with finance-related legal requirements.

Governmental Funds – The focus of the Town’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. This information is useful in assessing the Town’s financing requirements. For example, unreserved fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

A summary of the Town’s net assets for the year is as follows:

BUDGETARY HIGHLIGHTS

The budget was amended on December 29, 2010 to include the following increases for expenditures not anticipated at the time of adoption of the original budget on December 4, 2009. The additional expenditures were funded by unanticipated revenue and/or the prior year's fund balance. Funds with appropriation increases:

	Original <u>Budget</u>	New <u>Budget</u>	<u>Increase</u>
GENERAL FUND	\$2,222,211	\$2,422,211	\$200,000
RECREATION AREA FUND	\$ 171,729	\$ 221,729	\$ 50,000
HEAD START FUND	\$ 752,429	\$ 781,158	\$ 28,729
LIMON AMBULANCE SERVICE FUND	\$ 237,980	\$ 282,980	<u>\$ 45,000</u>
			<u>\$323,729</u>

- Changes in the General Fund Budget are attributable to hail damage repairs, pension costs and street projects. This increase in expenditure was offset by increased gravel sales, insurance claim revenue, and permits.
- Changes in the Recreation Area Fund Budget included capital asset improvements and hail damage repairs. This increase was funded through increases in insurance claims and interfund transfers.
- Changes in the Head Start Fund Budget were due to increased program expenditures, which were funded by increased federal grant funds.
- Changes in the Limon Ambulance Service Fund were due to increased equipment purchases and hail damage repair. The increases were offset by increased grant funds, ambulance income, and insurance claims.

Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended December 31, 2010

Net change in fund balances - total governmental funds \$ 300,290

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays of \$641,800 exceeded depreciation of \$393,586 in the current year. 250,419

Repayment of capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets 9,714

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets 63,000

This is the current-period increase in the liability for compensated absences (584)

Special assessment revenues in the governmental funds that provide current financial resources, but have not been included in the statement of activities. (13,160)

Bond issuance costs are reported on the statement of net assets as a deferred charge and amortized over the life of the debt. Current period amortization as reported on the statement of net activities. (3,957)

The statement of activities reports a gain or loss on the sale of assets based on the proceeds received and the net book value of the assets at the time of sale. The loss on disposal is calculated as follows:

Cost of assets disposed	(139,152)
Accumulated depreciation of assets disposed	41,393
Net loss on disposal of assets	<u>(97,759)</u>

Change in net assets of governmental activities \$ 507,963

Notes to Financial Statements

December 31, 2010

1. Summary of Significant Accounting Policies

The Town of Limon operates under a council-mayor form of government and maintains accounting policies to conform to generally accepted accounting principles as applicable to governments. Proprietary funds and similar component units apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The following is a summary of the more significant policies.

Reporting Entity

The Town has no component units using the criteria as set forth in generally accepted accounting principles. The determination to include separate governmental entities is based on the criteria of Governmental Accounting Standards Board (GASB) Statement 14. GASB Statement 14 defines the reporting entity as the primary government and those component units for which the primary government is financially accountable. To be financially accountable, a voting majority of the component unit's board must be appointed by the primary government, and either A) the primary government must be able to impose its will, or B) the primary government may potentially benefit financially or be financially responsible for the component unit.

Related Organizations

The Town's Board of Trustees is responsible for appointing the members of the board of the Limon Housing Authority, but the Town's financial responsibility for this organization does not extend beyond making the appointments. Therefore, it is not included in these financial statements.

The financial statements of the Authority may be obtained from: Director, Limon Housing Authority, 1880 Circle Lane, Limon, CO 80828.

Fund Accounting

The accounts of the Town are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The Town reports the following major governmental funds:

1. Summary of Significant Accounting Policies (continued)

General Fund - The general fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

Head Start Fund – This fund accounts for a Federal Head Start grant, which is passed through to the local child-care center.

Proprietary Funds – Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (including depreciation) of providing goods or service to the general public on a continuing basis be financed or recovered primarily through user charges. Proprietary funds are considered major funds because of community interests in the activities and sources of funding supporting these operations.

The Town of Limon operates the Water and Sewer Utilities, the Municipal Recreation Area Fund (primarily golfing activities), the Airport Fuel Fund (for the sale of fuel to airplane operators) and the Ambulance Service Fund on this basis.

Fiduciary Fund – Employees’ Pension Plan, as more fully described in Note 6.

Government-wide and Fund Financial Statements

The government-wide financial statements (the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or activity are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Town of Limon, Colorado
Notes to Financial Statements (continued)
December 31, 2010

1. Summary of Significant Accounting Policies (continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual government funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter, to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current period is considered to be susceptible to accrual as revenue of the current period. Sales tax collected and held by vendors at year end on behalf of the Town is also recognized as revenue if collected within 60 days after year end. Expenditure-driven grants are recognized as revenue when qualifying expenditures have been incurred and all other grant requirements have been met. Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. All other revenue items are considered to be measurable and available only when cash is received by the government.

Town of Limon, Colorado
Notes to Financial Statements (continued)
December 31, 2010

1. Summary of Significant Accounting Policies (continued)

Amounts reported as program revenue include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's ongoing operations. The principal operating revenues of the Proprietary funds are charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses. When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. streets, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Property, plant and equipment purchased or acquired is carried at historical cost or estimated historical cost. Donated or contributed fixed assets are recorded at their estimated fair value on the date received.

As a Phase 3 government, as defined in GASB 34, the Town has elected to not report major general infrastructure retroactively; therefore, the government-wide financial statements do not reflect infrastructure assets completed prior to January 1, 2004.

The costs of normal maintenance and repairs are charged to operations as incurred. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Town of Limon, Colorado
Notes to Financial Statements (continued)
December 31, 2010

1. Summary of Significant Accounting Policies (continued)

Depreciation of buildings, plants, and machinery and equipment is computed using the straight-line method over the following estimated useful lives:

Streets, sidewalk, curb, & gutter	25 to 30 years
Buildings and Improvements	20 to 40 years
Water and Sewer Systems	50 years
Water and Sewer Plants	20 to 50 years
Recreation Area Improvements	20 to 25 years
Equipment	5 to 15 years
Water Wells	20 years

Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or proprietary fund type statement of net assets.

Budget and Budgetary Accounting

The Town follows these procedures in establishing the budgetary data reflected in the financial statements.

On or prior to October 15, the Town Manager submits to the Board of Trustees a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.

Public hearings are conducted to obtain taxpayer comments.

Prior to January 1, the budget is legally enacted through the passage of an ordinance. Amendments can be made until year end. On December 29, 2010, the Board approved a resolution appropriating additional sums of money for the year 2010. The original and amended appropriation amounts are presented in the budgetary data in the financial statements.

Budgets for governmental and pension funds are adopted on a basis consistent with generally accepted accounting principles. Budgets for the Proprietary funds are adopted to fulfill statutory requirements and are prepared on an appropriation basis. Principally, the appropriation basis of budgeting provides for a full accrual basis of accounting, loans and reimbursements received, note receivable principal, capital expenditures and bond principal payments, but does not provide for depreciation and amortization.

Town of Limon, Colorado
Notes to Financial Statements (continued)
December 31, 2010

1. Summary of Significant Accounting Policies (continued)

For 2010 the Board of Trustees budgeted all funds and appropriated spending limits by fund. Therefore, the comparisons of actual and budget amounts relating to legal requirements shown in the financial statements is based on “total expenditures” plus “operating transfers to other funds” in the various fund types. All appropriations lapse at year end.

Encumbrances

The Town does not employ the method of encumbrance accounting that reserves specific appropriations for purchase orders and other commitments. Encumbrances outstanding at year end, when material, are reported as a reservation of fund balance since they do not constitute expenditures or liabilities.

Cash and Investments

Cash includes interest-bearing demand deposits (checking and money-market accounts), as well as short-term investments with a maturity date within three months of the date acquired.

Investments are stated at cost, except for marketable debt and equity security investments of the pension trust, which are valued at market. State statutes authorize the allowable type of investments, which are detailed in Note 2.

Property Taxes

Annual property taxes are levied and assessed on January 1 and are certified to the County by December 15 of the current year. On January 1 of the following year, the County Treasurer bills the property owners, thus establishing an enforceable lien on the property. The County Treasurer also collects the property taxes and remits the collections on a monthly basis to the Town.

The Town recognizes a receivable for property tax levies upon certification by the County Treasurer. A deferred revenue liability is recorded in the same amount since the taxes are not available at year end to fund expenditures of the current year. They are recognized as revenue when collected in the following year.

Property taxes are computed using mills, where one mill is equal to \$1 on \$1,000 of assessed value. The mill levy for 2010 was 17.686.

1. Summary of Significant Accounting Policies (continued)

Inventory and Supplies

Inventories of items in the following funds were valued at cost:

General Fund - Dumpsters and polycarts held for resale and street supplies	\$ 26,515
Utility - Treatment supplies, meters and parts	37,642
Municipal Recreation Area - Merchandise & Concessions	1,322
Airport Fuel Fund - Airplane fuel	<u>5,016</u>
Total Inventories	<u>\$ 70,495</u>

Compensated Absences

By ordinance, the Town's policy regarding vacation time is to not let it accumulate beyond one year, although some exceptions are made upon approval of management. Any unused vacation time is paid upon termination. Also by ordinance, any employee accumulating sick leave beyond 60 days shall continue to accrue sick leave at the rate of one-half day per month and shall have the additional leave added to vacation leave for the following year. The liability for vacation pay included in these financial statements includes such sick leave accrued to December 31, 2010.

Compliance with Colorado Contraband Forfeiture Act

Contraband funds collected and related disbursements are included in the financial statements.

Bond Discounts and Issuance Costs

Utility Fund bond discount and issuance costs of \$103,699 for the 2000 to 2004 issues are being amortized over the term of the bonds (15 to 20 years) on the straight-line method. Ambulance Fund loan costs of \$15,500 are being amortized over the 10 year term of the loan on the straight-line method. Costs of Proprietary Funds' issues prior to 1989 were either expensed or added to the cost of the related assets. Bond issue and loan costs of \$61,299 on debt not related to Proprietary Funds are being amortized over their term (10 to 20 years) on the straight-line method in the government-wide financial statements, but expensed currently in the governmental funds financial statements.

2. Cash and Investments

For the purpose of the statement of cash flows, the Town considers all highly liquid investments (excluding restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

Town of Limon, Colorado
Notes to Financial Statements (continued)
December 31, 2010

2. Cash and Investments (continued)

Cash Deposits – The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is specified by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. The State Regulatory Commissions for banks and savings and loan associations are required by Statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town has a policy of limiting custodial credit risks by assuring that deposits are only made in eligible public depositories. As of December 31, 2010, none of the Town's deposits are deemed to be exposed to custodial credit risk.

The Town's deposits as of December 31, 2010 are shown below.

The Town's cash deposits at December 31, 2010 was \$2,257,348 which include cash, investments, and restricted assets in the primary government Statement of Net Assets and cash in the Employee's Pension Plan in the Statement of Fiduciary Net Assets. Cash on hand was \$113 and the remaining \$2,257,235 is explained below:

Cash balances and certificates of deposit:

	Bank Balance	Carrying Balance
Insured (FDIC)	\$ 766,998	\$ 766,998
Collateralized by securities held by the pledging financial institution's trust department or agent in the Town's name	1,527,785	1,490,350
Total cash and certificates of deposit	\$ 2,294,783	\$ 2,257,348

The difference between the bank balance and carrying balance is \$37,435, which were outstanding items that had not cleared the banks as of December 31, 2010.

2. Cash and Investments (continued)

Investments - Colorado statutes specify in which instruments the local government may invest, which include:

1. Repurchase agreements in obligations of the United States;
2. Obligations of the United States or obligations unconditionally guaranteed by the United States;
3. General obligation or revenue bonds of any state, District of Columbia, US territory or any of their subdivisions, with certain limitations;
4. Bankers acceptance issued by a state or national bank, with certain limitations;

6. Retirement Plan

The Town maintains a single-employer defined benefit pension plan which covers all eligible Town employees, including police officers.

Employees' Pension Plan:

Plan Description. The Town of Limon Employees' Pension Plan is a single-employer defined benefit pension plan administered by the Town of Limon. The Plan provides retirement, disability, and death benefits to plan members and beneficiaries. The Town Board of Trustees has the authority to establish and amend benefit provisions. The Plan does not issue a publicly available financial report.

There is no provision for cost-of-living increases after benefits begin.

The plan covers full-time and special part-time Town employees.

Membership in the Plan consisted of the following at January 1, 2010, the date of the latest actuarial valuation:

Retirees and beneficiaries currently receiving benefits	0
Terminated plan members entitled to, but not yet receiving benefits	1
Active Plan Members	<u>25</u>
Total	26

Funding Policy. Plan members are required to contribute 4% of compensation up to \$550 per month and 6% of compensation in excess of \$550. The Town is required to contribute at an actuarially determined rate.

Direct administrative fees are paid from plan income. Indirect expenses (portions of Town administrative salaries) are not allocated to the Plan.

Annual Pension Cost and Net Pension Obligation. The Town's annual pension cost and net pension obligation to the Plan for the current year were as follows:

Annual required contribution	\$ 32,000
Contributions made	\$ (32,000)
Net pension obligation beginning of year	<u>\$ -0-</u>
Net pension obligation end of year	\$ -0-

6. Retirement Plan (continued)

The annual required contribution for the current year was determined as part of the January 1, 2010 actuarial valuation using the aggregate actuarial cost method. The actuarial assumptions included (a) 7.0% investment rate of return (net of administrative expenses) and (b) projected salary increases of 2.0% per year. Both (a) and (b) included an inflation component of 2.0%. The assumptions did not include postretirement benefit increases. The actuarial value of assets was determined using the market value method.

7. Contingency—Constitutional Amendment

In November 1992, the Colorado voters passed a constitutional amendment (Tabor Amendment) to the State Constitution (Article X, Section 20) which requires voter approval for any increases in mill levies, revenue limits, spending limits and creation of multi-year debt. In addition, the amendment requires that a reserve be established for emergencies of 3% in 1995 and thereafter.

7. Contingency—Constitutional Amendment (continued)

The Town has reserved \$104,269 within the General Fund and \$70,000 within the Utility Fund for the emergency reserve under the Tabor amendment.

On April 7, 1998, the voters of the Town approved a referendum allowing the Town to collect, retain and expend the full proceeds of the Town's sales and property tax, state grants, fees and other revenues received from December 31, 1997 and thereafter.

The Town believes that it is in compliance with the provisions of the Tabor amendment. However, many provisions of the Tabor Amendment are complex and subject to further interpretation and will require judicial interpretation.

8. Capital Lease

The Town has entered into the following lease-purchase:

2004 – for a gravel pit operated by the Street Department and for land and buildings used by the Ambulance Service Fund. The security for this lease-purchase is the Town's fire station.

The entire cost of the gravel pit of \$90,140, less the allocable cost of excess land sold in 2005 of \$62,269 is reflected in the Governmental Activities Capital Assets in the amount of \$27,871 and the obligation for the remainder of the lease in the Governmental Activities Liabilities in the government –wide financial statements.

The entire cost of the land and buildings in the amount of \$225,161 is reflected in the Business-Type Activities Capital Assets and the obligation for the remainder of the lease in the Business-Type Activities Liabilities.

Following is a schedule of the future minimum lease payments under the capitalized lease, together with the present value of the net minimum lease payments as of December 31, 2010:

9. Long-Term Debt (continued)

Legal Debt Limit - The legal debt limit as defined by Colorado State Statutes, for General Obligation Bonds issued by the Town is as follows at December 31, 2010:

Actual Property Value (taxable)	\$ 108,291,666	
	<u>x</u>	<u>3%</u>
		3,248,750
General Obligation Bonds issued, other than for Water & Sewer purposes, which are specifically exempted for the limitation		<u>-</u>
Available Debt Margin		<u>\$ 3,248,750</u>

The issues have certain early redemption provisions that could be utilized in future years at the option of the Board of Trustees.

10. Risk Management

The Town is exposed to various risks of loss to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters.

The Town carries commercial insurance for risks described below and employee health insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years. The pools have certain deductibles, which resulted in an out of pocket cost to the Town of \$7,020 in 2010.

Property, Casualty, Errors and Omissions and Liability Insurance

The Town is exposed to various risks of loss related to property, casualty, errors and omissions and liability losses. In 1986 due to the excessive cost of this insurance, the Town joined together with other cities and towns in the State of Colorado to form the Colorado Intergovernmental Risk Sharing Agency (CIRSA), a public entity risk pool currently operating as a common risk management and insurance program for members. The Town pays an annual contribution to CIRSA for its insurance coverage. The member agreement provides that the pool will be self-sustaining through member contributions and additional assessments, if necessary, and the pool will purchase excess insurance through commercial companies for member's claims in excess of a specified self insurance retention, which is determined each policy year.

Notes to Financial Statements (continued)
December 31, 2010

10. Risk Management (continued)

During 2010 the Town paid \$55,372 for insurance coverage to the pool which is included in the operating expense of the general and enterprise funds.

Workers' Compensation Insurance

The Town is exposed to various risks of loss related to injuries of employees while on the job. In 2009 the Town discontinued its membership in the Colorado Intergovernmental Risk Sharing Agency, Workers Compensation Pool (CIRSA), and obtained coverage from a commercial insurance provider.

During 2010 the Town paid \$30,166 for workers compensation coverage, which is included in the operating expense of the general and enterprise funds.

11. Interfund Transactions

Interfund receivable and payable are included within the balance sheet as they are current obligation and receivable of the appropriate fund. No eliminations have been made for interfund transactions in the fund financial statements.

The Town had the following interfund transactions during 2010:

Transfer from General Fund to Municipal Recreation Area Fund for general purposes.	\$ 54,561
Transfer from General Fund to Ambulance Service Fund for general purposes.	<u>13,742</u>
Total General Fund transfers	<u>\$ 68,303</u>
Transfer from Conservation Trust Fund to Municipal Recreation Area Fund for improvements.	<u>\$ 10,554</u>

12. Contingent Construction Payable

During the year 2000, the Town obtained two acres of land for a water treatment plant, in exchange for providing certain street, water and sewer improvements for seller's adjacent property. The agreed-upon value was \$114,000. The Town's obligation in this trade consists of two elements: (1) an obligation to complete certain improvements with an estimated cost of \$41,622, which were completed by the Town in 2001, and (2) a contingent liability to pay the seller's obligation of \$72,378 for improvements in the event the seller develops the adjacent land within 20 years. During 2006, the Town paid \$15,160 for those improvements resulting in a remaining contingent payable of \$57,218.

13. Employment Agreements

During 2003, the Town entered into employment agreements with four members of management. The agreements cover a variety of matters, including lump sum payment of three months' salary and three months' benefits, in the event the Board does not reappoint the employee after a regular municipal election, and he or she is willing and able to perform his or her duties. As of December 31, 2010, three of these individuals were employed, by appointment, by the Town. The fourth individual is now an at-will employee.

14. Water Rights Lease

On June 2, 2004, the Town purchased land, improvements, and water rights for \$689,454. The Town resold the real property to Frazier Farms. As a condition of the sale, the Town entered into a lease agreement to lease the water rights to Frazier Farms for 10 years at no charge. The lease contains a provision to temporarily terminate if the Town has an emergency shortage, then extend the lease to its original 10 year term and compensate Frazier Farms for any crop losses.

INDEPENDENT AUDITORS' REPORT
ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and the Board of Trustees
Town of Limon, Colorado:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Limon, Colorado, as of and for the year ended December 31, 2010, and have issued our report thereon dated July 25, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Town of Limon, Colorado's internal control over financial reporting as a basis for designing our auditing procedures for the purposes of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness in internal control over financial reporting is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected, by the Town's internal control on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Limon, Colorado's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Town of Limon, Colorado in a separate letter dated July 25, 2011

This report is intended solely for the information and use of management, others within the organization, the Board of Trustees, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT
ON COMPLIANCE WITH REQUIREMENTS APPLICABLE
TO EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH
OFFICE OF MANAGEMENT AND BUDGET CIRCULAR A-133

Honorable Mayor and the Board of Trustees
Town of Limon, Colorado:

Compliance

We have audited the compliance of the Town of Limon, Colorado with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended December 31, 2010. The Town of Limon, Colorado's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Town of Limon, Colorado's management. Our responsibility is to express an opinion on Town of Limon, Colorado's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A133, *Audits of States, Local Governments and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of Limon, Colorado's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Town of Limon, Colorado's compliance with those requirements.

In our opinion, the Town of Limon, Colorado complied, in all material respects, with the requirements referred to above that are applicable to its major federal programs for the year ended December 31, 2010.

Internal Control Over Compliance

Management of the Town of Limon, Colorado is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Town's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Limon, Colorado's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Trustees, others within the organization, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
